ASHRAE recognizes WaterFurnace's Carl Huber with Distinguished Service Award

Fort Wayne, IN – [WaterFurnace International, Inc.](http://www.waterfurnace.com), the leading manufacturer of [geothermal](#) and water source [heat pumps](#), announces that Carl Huber, vice president of corporate quality and sustainability at WaterFurnace, received a Distinguished Service Award from the American Society of Heating, Refrigerating and Air-Conditioning Engineers (ASHRAE) during the 2016 ASHRAE Annual conference in St. Louis June 25-29.

The Distinguished Service Award salutes members who have served the society faithfully and with distinction and who have given freely of their time and talent in chapter, regional and society activities. Huber is a 30-plus-year member of ASHRAE, having chaired the Applied Heat Pumps and Heat Recovery Systems Technical Committee and the Research Administration Committee. He also served as program chair of the Geothermal Utilization Technical Committee and currently serves on the board of governors for the Fort Wayne ASHRAE chapter.

“This award is definitely the highlight of my years as an ASHRAE member and the culmination of the various positions in which I’ve served the organization,” said Huber. “My interaction with ASHRAE members has provided me tremendous knowledge, friendships and memories over the years. I am very honored to have represented my company in this manner and thankful for all the support provided me.”

Huber has been active in the water source heat pumps and heat transfer industry since 1979, including 35 years of experience in the design, development and support of heating, ventilation and air-conditioning (HVAC) products. He joined WaterFurnace in 1988, where he has held a

variety of positions in research, engineering and quality. In addition to his membership in ASHRAE, Huber has served on numerous local and national engineering committees, including the board of directors of the Air Conditioning and Refrigeration Institute (ARI) and chairman of the ARI Applied Package Systems Section. He has worked as a part-time lecturer at IPFW University and serves on their Engineering Advisory Board. Huber is president and CEO of USO of Indiana and serves on the boards of Fort Wayne Base Community Council and North East Indiana Honor Flight. He holds Bachelor of Science and Master of Science degrees in mechanical engineering from the University of Tulsa.

More Information:

As part of NIBE Climate Solutions North America, WaterFurnace International, Inc. is a leading manufacturer of residential, commercial, industrial and institutional geothermal and water source heat pumps. Although it earned a reputation as a leader in geothermal heat pumps, WaterFurnace has worked in recent years to innovate new technologies, integrate key trends and grow the core business to represent a portfolio of clean and sustainable solutions. WaterFurnace was founded in 1983, and the company is headquartered in Fort Wayne, Ind.
